To Whom It May Concern:

From my own experience, the organic farmer that pastures his cows has a healthier herd and consequently produces healthier milk. The current movement to weaken the pasturing requirement is a step toward destroying a good thing! I encourage you to hold fast to the organic principles that truly are part of the foundation of organics.

Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Jerome Leis". The signature is written in dark ink and is positioned below the word "Sincerely,".
